

Agro-Dealers
(buyers, extension services providers, pest/seed/input providers, etc.)
Scale-up AgroNets in Kenya

The goal of this questionnaire is to investigate:

- number and location of clients
- integrated services, especially with GH programmes
- key actors in the county
- financial schemes that they have experienced

Sampling

Please, contact at least 2 agro-dealers (up to 4) involved in horticulture products in the county, including at least

- an input supplier
- a service provider
-

Introduction

Name, date and place of participants to the interview

Provide an introduction to the project and explain the goal of the interview, as to gather critical information:

- on agricultural stakeholders and their connections,
- on agriculture and horticulture sectors,
- and on preferences of farmers and other stakeholders,

in order to scale up the use of AgroZ NEThouses in Kenya

Methodology

The questionnaire is written in English, and with a rather standardized vocabulary. Please, adapt questions and option for answer to an understandable vocabulary for the person being interviewed. Provide explanation on unclear questions, and ask for support from TGD (Jeremiah / Joseph) or Microfinanza Srl (Marco) if some issues prove difficult to be explained

Questions follow a logical order. Sub-questions depend of the answer on the first questions (example yes/no question, and then “if yes” and “if no” sub-questions), and often you are supposed to fill in only one of the sub-questions. Please, check it before asking the question to the interviewee

Generally speaking, do not prompt the potential answers when asking for opinion or explanation. However, try to fit the answer with one of the proposed solutions, and use the “other – explain” when something actually different is mentioned

When appropriate, use the cell on the right for comments or integrations to the questionnaire, like the “other – explain” option.

When introducing the issue on the AgroZ net house Technology, please keep some pictures with you and show them to the interviewee, when this is necessary to facilitate the discussion

The questionnaire has three sections:

- Introduction and clients
 - Provide a description of the main services and features provided by the interviewed person, including prices of products. Check the type, number and location of clients, and the connections with other stakeholders
- Relationship with clients
 - Investigate the delivery channel and the type of relationship they have with the clients. Investigate especially the relationship with client and service provider.. Further to that, check if any pre-financing scheme is already used, and in which way, with a specific attention on whether this is made directly by the company or through a financial institution
- Greenhouses and nets
 - Investigate whether the interviewee has any experience with greenhouses and Net Houses. On GHs, check what went well and wrong, check information on location and on any activity for renovation of GH. Regarding nets, try to understand the level of awareness on the technology, and what are the key aspects that would make AgroZ net houses an attractive product.

Index

Section 1 - INTRODUCTION AND CLIENTS	3
Section 2 - RELATIONSHIP WITH CLIENTS.....	3
Section 3 - GREENHOUSES AND NET HOUSES.....	4

Interviewee's Name	County	Sub-county	Mobile. N
Name of the shop (if any)		Branch of HQ?	

Section 1 - INTRODUCTION AND CLIENTS

Provide a description of the main services and features provided by the interviewed person, including prices of products. Check the type, number and location of clients, and the connections with other stakeholders

N.	Question	Answer
1.1	What's your key business?	<input type="radio"/> Selling agricultural inputs <input type="radio"/> Providing agricultural extension services <input type="radio"/> Other – explain
1.1.1	<ul style="list-style-type: none"> If input suppliers, which inputs? 	<input type="radio"/> Equipment <input type="radio"/> Machines <input type="radio"/> Seeds <input type="radio"/> Fertilizers <input type="radio"/> Pesticides <input type="radio"/> Agricultural tools <input type="radio"/> Other – explain Mention main products <input type="radio"/> <input type="radio"/> <input type="radio"/> <input type="radio"/> <input type="radio"/>
1.1.2	<ul style="list-style-type: none"> If service provides, which services? 	<input type="radio"/> Training <input type="radio"/> Installation irrigation system <input type="radio"/> Technical assistance for horticulture, <input type="radio"/> Other – explain Mention main services <input type="radio"/> <input type="radio"/> <input type="radio"/> <input type="radio"/>
1.2	How many clients do you think you have in the county?	<input type="radio"/> Less than 100 <input type="radio"/> 100-300 <input type="radio"/> More than 300
1.2.1	<ul style="list-style-type: none"> Are they primarily Large scale farmers or small scale farmers 	<input type="radio"/> Large scale farmers (extremely mechanized, mobilizing the several trucks of products) <input type="radio"/> Small Scale farmers – smallholder farmers <input type="radio"/> Both
1.3	Do you work in consortium with other stakeholders	<input type="radio"/> No, I work independently <input type="radio"/> Yes, we have informal agreements in order to keep our market shares, or any other kind of consortium
